

Pump Specification GPD 30-2

- Pressure range : 0 – 420 Bar @7 bar air drive
- Capacity : 0 – 25,5 ltr/min
- Displacement per Cycle : 508 cm³
- Weight : 130kg
- Height : 100cm
- Width : 110cm
- Depth : 70cm

The pump unit is according to Norsok Z015 Temporary Equipment and Atex approved for Zone 2.

Performance Graf GPD 30-2

Air driven test unit for pressure and burst testing. The test unit can as well be used for injection of liquids and chemicals.

The pump graph is theoretical. Recommended 60 strokes pr. minute for 24 hour operation
